# INTERNATIONAL COURSE ON NEUROMODULATION

29 - 30 JUNE 2017 MECC  
MAASTRICHT - THE NETHERLANDS

Maastricht University Medical Center is a center of excellence in global Neuromodulation. There is long tradition of using Neuromodulation in the treatment of fecal and urinary incontinence, pain, spasticity, movement and psychiatric disorders. In the last years, new indications and approaches have been added to this armamentarium, including Neuromodulation for constipation, irritable bowel syndrome, epilepsy, and tinnitus.
